

Thrive Symposium

Inner transformations for a flourishing healthier life and relationships!

“People settle for a level of despair that they can tolerate and call it happiness.”

Søren Kierkegaard

Whether you are stuck in a dead-end job, a loveless relationship, burnt out or physically unwell, join us for a one-day **Thrive Symposium** to reboot your life. Or dare to dream again with renewed passion and energy. And to find fresh creativity for your talents and giftedness.

With our combined decades of experience as healers and trauma overcomers, using stories, music, and the very latest neuroscience, **we will impart keys to inner change designed to unlock a flourishing life.** Four effective keys will not only help you rebalance your life, but can also become a fountain of transcendent life-force.

Likeminded ministry exhibitors will be onsite with the opportunity to request follow-up group, couple, or individual therapies.

For a cost less than your spring car tune-up, you could benefit yourself, your family, and your workplace with your own inner world “tune-up!” Exchange despair for delight.
